

JUMP AND TALK

The game destined for kids to enjoy English learning. 2,5 m x 3,5 m board with task fields makes the classes amazing and active.

During the game, players have to show their knowledge of colours and counting to 10. They also have a possibility to talk about their favourite and worst food. Players roll the dice, stand on the field and do the task written on it. Traps and chances on the board may speed up or slow down the players journey, as they need to crawl, jump or fly to the lower or higher field.

It guarantees lots of laugh and great fun!
