## Reading

### Wear it and feel it

**Do you always wear black or white? Or do you choose clothes in different colours for different days? Maybe we don't know why we choose different colours, but read on to see how colours can change the way you feel.**

Blue helps you to relax when you are stressed. It can also help your creativity. Put on a comfortable blue tracksuit and start painting or writing! But be careful. Blue is a cold colour, so if you feel sad, don't wear your blue hoodie. Choose a green one instead. The colour of trees is also relaxing and makes us think of nature.

Red and pink are the colours of love, but red is more energetic, so wear your favourite red dress when you go out with friends. Everyone will want to talk to you! But red can also make you hungry for junk food, so don't wear a red T-shirt every day!

Do you feel tired in the morning? Put on a yellow sweater. Yellow is the colour of the sun. It gives you energy and it can wake you up. Experts say yellow also makes us feel clever, so why not wear a yellow scarf or necklace when you have exams?

Finally, black and white. White helps you feel more confident. It is useful because it goes with everything! Black is a strong colour that can help a shy person feel confident too. Put on your black jeans when you are meeting someone new and match them with a white T-shirt.
